Restoration Gala

Come help us celebrate a day of healing and learning about the Laguna de Santa Rosa.

By coming together on this day, we hope to provide our community with a greater awareness of Nature's magnificence and demonstrate how each of us can play a significant role in preservation and restoration of this very special natural resource.

Activities

- Ceremony by DeAnna L'am: Planting for our future; moving beyond our differences to heal the Earth. Ceremony accompanied by members of the Analy Honor Choir.
- The Kokopelli Performing Troupe directed by Shepard Bliss, will play music using land-based primitive instruments and recite poetry about water and wetlands.
- Resolutions and Special Award Presentations.
- Docent-led tours, bird and nature walks.
- Displays and information from special interest groups actively involved in preserving the health of the Laguna including: Regional Parks, Sebastopol Tomorrow, The California Native Plant Society, Master Gardeners, the Audubon Society and much, much more.

Presentations

- Slide Presentation of the Laguna Past and Present - *Richard Nichols of Coastwalk*
- Vernal Pools and Little Critters - *Betty Guggolz of the Native Plant Society*
- The County & The Laguna - *Mike Reilly of the Sonoma County Board of Supervisors*
- Wetland, Water & Endangered Species - *Caroline Dixon of Wetland Watch*
- Why wetland preservation is good for local communities and the elements required for successful implementation - *Wesly Chesbro of California Integrated Waste Management Board and Key Community Leader for the Arcata Marsh Restoration Project*
